

Field-Cote® CRF SMART

Controlled Release Fertilizer

Fieldgrown plant hole application

4 Reasons why we use Field-Cote® CRF SMART

- **Efficiency**

Most efficient nutrition release direct at rootzone.
Release based on soil temperature and specific needs.

- **Quality**

Maximum plant quality through a balanced nutrient supply direct at the root zone.
Field-Cote® CRF SMART guarantees a constant nutrient release in all weatherconditions.

- **Smart growing**

Optimized application for automated nursery to reduce labour.
Easy to use by GPS plant-hole machinery.

- **Cost saving**

Labor costs becomes a bottleneck for many nurseries.
Field-Cote® CRF SMART fits perfectly in a sustainable efficient nursery strategy.

SMART growing Fieldgrown plant hole application

Planting hole application CRF-trial, Delphy – The Netherlands.

Field-cote®CRF SMART dosages per crop in kg / ha and gram / plant

Field grown plant-hole application	One season application Field-Cote CRF SMART 17+7+11+2MgO + Traces 6-8m	Two season application Field-Cote CRF SMART 16+6+10+2MgO + Traces 24m
Tree nursery		
Shrubs new planting - high nutrition requirement	300-500 kg/ ha	600-900 kg/ ha
Shrubs new planting - middle-low nutrition requirement	300-400 kg/ ha	600-800 kg/ ha
Conifers new planting	300-400 kg/ ha	600-800 kg/ ha
Avenue trees new planting	200-300 kg/ ha	300-500 kg/ ha
Rhododendron & Azalea	250-350 kg/ ha	500-700 kg/ ha
Christmas trees - pot in soil	250-350 kg/ ha	500-700 kg/ ha
Floriculture		
Lavender	200-400 kg/ ha	
Chrysanthemum - pot in soil	200-400 kg/ ha	
Fruit		
Blueberry - new planting	40-50 gram / plant	70-100 gram / plant
Red currant new planting	35-45 gram / plant	60-70 gram / plant
Fruit trees (apple/pear) new planting	40-60 gram / tree	80-100 gram / tree
Fruit		
Asparagus new plantage	300 kg / ha	500 kg / ha

Contact our specialists for a SMART and complete advice specialized for your cultivation. Some crops require specific finetuning with fertigation- or foliar-application with Granusol WSF or Granufert WSF. After the second growing season, we will advise our Field-Cote CRF and Granustar CRF standard applications.
