

ARBO-COTE® SUPER POWERS:

-  FULLY COATED NPK = LONG-LASTING & BALANCED NUTRITION
-  SLOW-RELEASE TRACES = STEADY MICRONUTRIENT SUPPLY
-  CONTAINS DURABLE COATING = BIODEGRADABLE
-  3 NITROGEN FORMS = STRONG AND CONTINUOUS GROWTH

Arbo-Cote® CRF

16-9-10 + CaO + 3 MgO + TE

Durable® Controlled Release Fertilizer

Specially developed for substrate cultivation

Arbo-Cote® CRF is a cost efficient controlled-release NPK fertilizer enriched with calcium, magnesium and a full package of trace elements. The unique Durable® biodegradable coating ensures a linear nutrient release, avoiding nutrient peaks at high temperatures. This guarantees a stable and efficient nutrient uptake, ideal for nursery stock, pot & bedding plants and soft-fruit substrates.

Available in three variants:

- 4M longevity (approx. 4 months)
- 6M longevity (approx. 6 months)
- 8M longevity (approx. 8 months)
- 12M longevity (approx. 12 months)

Key Features:

- Fully coated N, P and K for long-lasting and balanced nutrition.
- Micronutrients included: B, Cu, Fe, Mn, Mo, Zn.
- Enriched with 3.5 MgO for optimal color.
- Minimal leaching and volatilization losses, ensuring optimal nutrient utilization.
- No exponential release at higher temperatures.
- Low-start, high-end release profile for consistent growth.
- Delivered in 20 kg PE bags (UV protected) or 500/1000 kg big bags.

Recommended rates:

- 4M: 2-3 g/l
- 6M: 2-3 g/l
- 8M: 3-4 g/l
- 12M: 4-5 g/l
