

Swiss Green®

12+4+10+2MgO

Swiss Green® All Season

Organic & MU mini granulate

12+4+10+2MgO

Recommended dosage:

Autumn: 20–40 g/m²

-  Fine granule size: 0.5–1.0 mm
-  Supports soil microbial activity
-  Slow-release: organic base + MU
-  Odour-free
-  No animal manure
-  Dust-free application
-  Long-lasting organic protein source

Swiss Green®

12 + 4 + 10 + 2 M g O

The ultimate fusion of Organic & Methylene Urea:

Improves active soil life:

Improves microbial activity, enhancing soil structure and nutrient availability.

Slow and consistent nutrient release:

Organic proteins combined with methylene urea provide a steady, season-long nutrient supply without peaks.

Odour-free and clean to use:

No unpleasant smell, making it suitable for sports turf, public spaces, and ornamental lawns.

Dust-free and fine granule size:

0.5–1.0 mm granules ensure easy spreading and uniform coverage.

No animal manure:

Contains no animal manure, making it cleaner and safer to apply than traditional organic fertilizers.

Long-lasting organic protein source:

Supports strong colour, density, and recovery throughout the entire growing season.

Application & dosage

Apply during the growing season for strong turf recovery, colour, and resilience. → 20–40 g/m² (200–400 kg/ha)

Granule size: 0.5–1.0 mm ensures even spreading and consistent release.
